## WILL BE A MOTHER TO ALL WAYWARD GIRLS

Miss Jackson, New Probation Officer,  
Will Have Under Her Care Girls  
Who stray From the Narrow Path  
of Rectitude.

Miss Jackson, who has been appointed by the city as probation officer with police powers, will commence her duties immediately. Miss Jackson has been connected with the department of neglected and delinquent children for a year and is thoroughly familiar with the work which she will undertake.

A mother to all wayward girls, a big sister to some and a disciplinarian to others, the woman police officer will be a person of gentle tact and great personal magnetism. She must, certainly, be strong moral bond on her way for wards they will be in fact. She must work with all the delicate which have taken upon themselves the problem which the city has at last recognized and direct the efforts of less experienced volunteers in that work.

she will be to a considerable extent legally responsible for the girls.

Once a wayward girl has come before her department she will become a ward of Miss Jackson. Miss Jackson will have charge of her meadows and amusements. The girl will have to turn all her earnings into the department and Miss Jackson will open a trust account for her. Arrangements have already been made with one of two stores in the city whereby on an order from Miss Jackson her wards may secure clothing at a little over cost price. By this means it will be much easier for the girl to earn a living.

While Miss Jackson will have none of the ordinary duties of a policeman, she will have all his powers, she will enter any place of amusement in the city and if necessary order any one out of it.

Her chief work, however, will lie in keeping her eye on girls who have come under the attention of the department. Her efforts will be to direct them the right kind of amusement and through her personal influence change their method of living. Miss Jackson considers that most of the girls that come under the attention of the department go wrong because of financial difficulties. Her chief efforts therefore will be to teach girls how to arrange their life so as to make the most of their earnings.

## BOYCE BEGGED SNEED NOT TO SHOOT AGAIN

Testimony Introduced at Habeas Corpus Hearing Develops Fact That  
When Boyce Felt He Begged Sneed  
Not to Shoot a Second Time.

Amath, Sept. 23.—At Boyce begged John H. Sneed not to shoot him again after he had fallen on the ground, September 15, killed with a bullet, according to the testimony of the witness, a witness to the killing at the house of Sneed yesterday. He further testified that Sneed immediately fired again and, then looking down at the victim said: "I knew you are dead."

Sheriff William Hurrell testified that Sneed's ears and head rendered it difficult for him to recognize him on the day of the tragedy. The state endeavored through testimony of the sheriff to strengthen its contention that the killing was premeditated. An attempt to introduce testimony relative to the alleged Sneed's statement of last fall was rejected by the state. The defense waived the matter. State's attorneys say that the attempt to introduce the statement feature indicated that Sneed's defense on the charge of murder would be the unwritten law. At the hearing Sheriff Hurrell and twenty special deputies followed the court's order religiously to search for arms all items who sought admission to the room.

State witnesses, of whom there were 41, were to be introduced before there were thirteen witnesses for the defense. The hearing will be continued four days. Attorneys and friends of the Sneed and Boyce families have gathered here in large numbers.

The grand jury reconvened yesterday to investigate the charges against S. H. Boyce, the farmer arrested at Paducah Thursday in connection with the shooting of Boyce.

## THE "OLD CHIEF" IS IN GREAT FORM.

Ottawa, Sept. 24.—Sir Wilfrid Laurier, jack from his tour of Northern Ontario, will spend this week in Ottawa, starting out again next week on a tour of the older parts of the province, beginning at Cornwall on Monday.

The "Old Chief" was at his office today conferring with some of his lieutenants in regard to party organization. Sir Wilfrid is greatly impressed with the enthusiasm, greeting him and his colleagues at the meetings last week and never was in better or more confident fighting form.

On Thursday night he will speak at a banquet of the Canadian Manufacturers' association. Tomorrow morning and Hon. W. T. White will speak for the government.

Owing to the early calling of parliament Sir Wilfrid will now be prevented from making his tour of the province provinces, as was originally intended.

## HAVY FROSTS WERE RECORDED OVER THE PRAIRIES LAST NIGHT

Thermometer Dipped to 12 Degrees Below Frost Line at Swan

River—No Frost at Two. Winnipeg, Sept. 24.—With very low exceptions the past twenty-four hours have been the all over the Canadian Prairies west. Heavy frosts commencing to frost night to twelve degrees were recorded at number of points in the three prairie provinces, the low point being recorded at Swan, River, northern Manitoba with eighteen degrees.

Curiously, the Winnipeg district and much of southern Manitoba is so far spared with not even a touch of frost, it will tender garden stuff. A lot of what is in the ground is now in the hands of the farmers and the weather conditions with cool temperatures and clear skies are well suited to harvest.

There will be general in a few days when the heaviest crop of the year will be in the hands of the farmers. The railways say they are all lined up to take care of the rush in record order if it doesn't all flood in at once.

## BRITISH SUBJECT BUT NOT A BRITISH VOTER

Annals of the Present Naturalization Laws—Man Had Certificate

London, Sept. 23.—One of the serious anomalies of the present naturalization laws, as pertaining to the certificate issued within the empire, was mentioned in the city of London before a court yesterday. When Joseph

Fortune, a city business man, claimed a registration vote. "Where were you naturalized?" "Zuluana," replied Fortune. "Then," said the revising barrister, "I am afraid your certificate applies only to South Africa and doesn't hold good in England."

Fortune insisted that his certificate specially stated that he was a British subject and claimed, though wrongly, that he was naturalized throughout the British empire.

The claim was dismissed.

## TALK OF FIGHTING IN ULSTER IS THE SHEEREST BUNKUM

London Chronicle says the "Ulsterite Circus" Can Have No Effect on Irish Vote.

London, Sept. 24.—The Daily Chronicle's special correspondent, who is accompanying the Ulster leaders in their anti-home rule campaign in Ulster, thus refers to the "performance of the Ulsterite circus." The performance, of course, is meant for the benefit of the British people. They are assured that the purpose of intimidating the government and maintaining the Ulster situation. Not a single vote in Ulster has been turned or will be turned if the performance went on until Christmas.

"They will be no fighting. Kilted uniforms and dandy rifles have frightened nobody. They are only a show. No real fight unless they are at least five to one and the cause is unarmoured. All those threats about resistance, all this talk about dying in the last ditch on the cause of our liberty are the sheerest bunkum."

## Must Not Drink or Smoke.

Chicago, Sept. 24.—President Chas. W. Murphy, of the Chicago National League baseball team, expressed the opinion last night that in a short time all managers of the league clubs will be compelled to enforce strictly the clause in the contract prohibiting players from drinking or smoking during the baseball season. "I will enforce the new rule if I lose all my stage and if it puts the team in last place," said Mr. Murphy. Mr. Murphy says if necessary he will hire detectives to watch suspected players.

Chicago Grain Markets

Chicago, Sept. 24.—Misgivings that the wheat threshing northwest would be seriously delayed by the stormy weather, which brought about fair support for wheat today, but no enthusiasm in the market closed nervous at an advance of 1-8 and 1-4c net.
